

Haydar Demir

Senior Flutter Developer

✉ haydarrdemir@hotmail.com 📍 Ankara 📅 17 September 1997

🐙 @birhos 🗣 @birhos 🌐 haydardemir

I have successfully completed my bachelor's degree in Computer Engineering and possess a strong foundation in mobile application development. I enjoy tackling complex problems with creative solutions and excel at quickly learning and practically applying new technologies. I have experience managing projects effectively by maintaining strong communication with both technical and non-technical teams. Hardworking, energetic, and dedicated, I aim to create value and contribute to the team in every project I undertake.

Education

Sep 2015 - Jun 2019

Computer Engineering
Kırıkkale University, Kırıkkale
GPA: 3,26/4,00

Experience

Feb 2024 - Present

Mobile Team Lead
One Dose Health, Ankara

As a Mobile Team Lead, I lead the development of the One Dose Health app and projects tailored for the insurance industry. I manage the development, maintenance, debugging, and deployment processes of applications, providing innovative solutions to enhance quality. Together with my team, I focus on delivering high-standard software products with a strong emphasis on user experience.

May 2022 - Feb 2024

Flutter Team Lead
Güven Future, Ankara

I began my career at Güven Future as a Flutter Developer and was quickly promoted to the position of Team Lead. During this time, I led the development of modular, clean, and secure projects while actively contributing to the creation and implementation of the company's coding standards. Additionally, I played a key role in various integrations, including Fastlane, Sentry, Adjust, Firebase, RevenueCat, and Google Fit.

Sep 2021 - May 2022

Flutter Developer
Güven Future, Ankara

I started my career at Güven Future as a Flutter Developer, working in a team for the first time. During this period, I successfully completed development tasks and bug fixes, enhancing both my technical skills and my experience in teamwork.

Sep 2020 - Sep 2021

Flutter Developer
duSoft Yazılım A.Ş., Ankara

At duSoft Software Inc., I single-handedly managed the maintenance of large-scale applications and actively contributed to the development of two major applications. One of these projects was Hesaplı Yaşa, an AI-powered smart budget management application. By taking on responsibilities in various projects, I had the opportunity to enhance my technical expertise and problem-solving skills in software development processes.

Aug 2019 - Aug 2020

Flutter Developer
Yahşi Medya, Kırıkkale

I started my career at Yahşi Media as a recent graduate and joined the application development process by learning Flutter. I successfully developed news, municipality, and video streaming applications and published them on Google Play and the App Store. This experience allowed me to elevate both my technical skills and my proficiency in software development processes to the next level.

Sep 2018 - Apr 2019

Software Engineer Parttime
Provega Bilişim, Mühendislik ve Danışmanlık Hizmetleri, Kırıkkale

Jun 2018 - Jul 2018

Stajyer
Provega Bilişim, Mühendislik ve Danışmanlık Hizmetleri, Kırıkkale

During my second internship, driven by the desire to develop a project with real-life applications, I participated in the Library Electronic Access System project. The project consisted of three components: a user website, an admin panel, and a mobile application developed with Xamarin Forms. We continued to develop this project until the end of our undergraduate studies and successfully delivered it.

Jun 2017 - Jul 2017

Stajyer
Provega Bilişim, Mühendislik ve Danışmanlık Hizmetleri, Kırıkkale

During my first internship, I developed my first projects using PHP and MySQL, gaining significant experience in the fundamentals of software development.

Projects

Jan 2022 - Present

One Dose Health

One Dose Health, Ankara

One Dose Health is a mobile application that enables users to easily track their health data, share data from medical devices with doctors, and conduct online health consultations. With integrations like Apple Health and Health Connect, it offers users a comprehensive health ecosystem.

Mar 2023 - Feb 2024

Mentaskop

Güven Future, Ankara

Mentaskop is an AI-powered mobile application designed to help users understand their emotions and cognitive distortions. With mood tracking and personalized content, it aims to support their mental well-being.

Sep 2021 - Feb 2024

Güven Online

Güven Future, Ankara

Güven Online is a mobile application that provides users with digital healthcare services. The platform enables quick appointment booking, access to test results, and video consultations with specialist doctors. It is designed to ensure constant access to healthcare services.

Sep 2019 - Aug 2020

Gazetekale

Yahşi Medya, Kırıkkale

Gazetekale is a digital news platform that delivers the latest news and developments from Kırıkkale to its users quickly and impartially. The mobile application I developed provides a seamless news experience with a user-friendly interface and easy access features.

Jan 2020 - Jul 2020

Kırıkkale Haber

Yahşi Medya, Kırıkkale

Kırıkkale Haber is a news application where users can follow breaking developments in various areas, from current events and politics to education, culture, arts, and economics. It is designed to meet the needs of its users.

Jan 2020 - Jul 2020

Kırıkkale TV

Yahşi Medya, Kırıkkale

Kırıkkale TV is a mobile application that provides video broadcasting services with impartial, accurate, and reliable content. It aims to make it easy for users to access updates and developments related to Kırıkkale.

Jan 2020 - Jul 2020

Yahşihan Belediyesi

Yahşi Medya, Kırıkkale

Yahşihan Belediyesi mobile application was developed to provide easy access to municipal services. The app offers a variety of features, including information about the mayor and council members, tender and zoning announcements, directorates, and services like Yahşi Masa, all in one place.

Jan 2020 - Feb 2020

Evden Sipariş

Yahşi Medya, Kırıkkale

Evdensiparis.com is a platform designed for residents of Kırıkkale, allowing them to easily place orders from the comfort of their homes.
